

Prodew

MISTING & HUMIDIFICATION

Prodew 388

Patent Pending

The Easy to Shut Off Mist Sprayer

Prodew has now taken the guess work out of turning the mist on and off. Simply turn the wing nozzle a quarter turn with your finger tips. No tools needed, no sliding, no tricky pulling and pushing.

- **Fine Mist**

The mist is so fine it feels like fog, providing just enough water to keep produce moist and attractive.

- **Low Profile Design**

The continuous clamp on the Prodew 388 forms a track that blends into the display case. It is available in black and white.

- **No Mirror Spraying**

The movement of the Prodew 388 can be adjusted within a limited range, to spray only where it is needed.

- **Lowest Prices in the Industry**

We design and manufacture to the highest quality standards for the lowest price.
