MISTING & HUMIDIFICATION

introduces

Citrofresh

The World's Only Certified Organic Disinfectant and Sanitizer

Active against Avian (bird) flu, Anthrax and all other harmful pathogens

- 🍊 Significantly increases the shelf life of fruits, vegetables, seafood, meat, poultry and flowers.
- 🍊 Protects against bacteria, viruses, molds, yeast, and fungi.
- 🍊 Completely natural and non-toxic, extracted from the pith of oranges.
- 🍊 Inexpensive and has a long shelf life.
- 🍊 Ongoing and lasting disinfection capability of up to 48 hours.
- 🍊 Leaves no residue and is odorless; does not taint food.
- 🍊 Reduces the risk of food poisoning by killing pathogenic micro-organisms.
- 🍊 Eliminates odors.

Why Citrofresh?

- 🍊 The only **CERTIFIED ORGANIC** disinfectant in the world.
- 🍊 Other products used in the market contain **toxins, chlorine or hydrochlorous acid (the active ingredient of chlorine) and ozone.**
- 🍊 **Totally non-corrosive in all applications. Competitor's products are corrosive to stainless steel, soft metals and plastics.**
- 🍊 **Actively disinfects for 48 hours after application, which is much longer than other products.**
- 🍊 **Lower cost of equipment.**

Applications

MISTING — FOR PRODUCE OR SEAFOOD 🍊 **HUMIDIFICATION — FOR MEAT OR SEAFOOD**
SPRAYING OR WIPING COUNTER TOPS, KNIVES, CUTTING BOARDS, FLOORS
IMMERSION, CRISPING OR RINSING

ProDose Delivery Systems

Citrofresh comes as a concentrated liquid and is diluted to suit the application, either by direct mixing with water, or through a ProDose pump which mixes Citrofresh with water at a predetermined percentage. Since this pump type is activated by the water flow, it operates without electrical power. The ProDose pump can be mounted on the wall or moved around on its own cart.

ProDose Cart
