

**ELIMINATES MINERAL BUILD UP AND CORROSION
CREATES A PROTECTIVE LAYER IN TUBING AND PIPES**

NeutraScale protects appliances and devices like:

- Spray nozzles
- Mirrors
- Ice machines
- Bakery proofers
- Coffee and espresso machines
- Faucets and shower heads
- Washing machines
- Solar water systems
- Piping
- Boilers
- Dishwashers
- Heating elements
- Electric kettles

BENEFITS

LONGER DURABILITY

Without scale and rust, appliances last longer and have fewer technical problems. Also, pumps work more efficiently and last longer. Pipes last longer and won't need to be replaced.

HIGHER EFFECTIVENESS

Heating elements provide more hot water at a lower electricity consumption rate. For example, just 1 millimeter of scale adds 10% to electricity consumption!

General Data	
Max flow rate	60 USgpm (15 m ³ /h)
In - Out diameter	½" npt
Maximum pressure	150psi (10 bar)
Maximum temperature	140° F (60° C)
Dimensions/Weight	
Dimensions	NS-20: 4" x 9" x 23" (10.1cm x 22.8cm x 58.4cm)
	NS-10: 4" x 9" x 12" (10.1cm x 22.8cm x 30.5cm)
Weight	NS-20: 9 lb (4.08kg)
	NS-10: 5 lb (2.27kg)

The active media is a 100% pure food grade scale inhibitor approved by the USDA that meets purity requirements as a food additive by the World Health Organization. It sequesters or binds calcium and magnesium minerals preventing them from precipitating out of solution and building up on metallic surfaces. It also forms a thin protective layer on the pipe wall or metallic surface which helps to eliminate mineral build-up and corrosion.
