

Service

Maintenance, Repair and Technical Support

ProdeW

Providing Excellent Technical Support For All Misting & Water Filtration Systems

ProdeW's service technicians provide quality service and customer support across the USA. Our team will diagnose errors or technical problems and determine the most timely and affordable solutions. We can install, calibrate and service any type of misting system, humidity control, water filtration or water purification equipment to help keep your produce fresh and attractive. The end result is a longer shelf life and higher vitamin/color content, with less stocking/pulling labor and reduced shrink.

PRODEW ARE WORLD-RENOWNED EXPERTS IN THE INSTALLATION AND MAINTENANCE OF PERISHABLE EQUIPMENT

- On-site and phone tech support
- Troubleshooting
- Replacement Parts
- Engineers of systems on staff

SERVICE FROM FACTORY TECHNICIANS

ProdeW technicians are full-time employees, never untrained third party contractors. ProdeW technicians are very reliable and experienced on all perishable control equipment and water filtration systems. ProdeW techs are unpaired by any of our competitors.

PROMPT RESPONSE TIME

ProdeW offers technical support with direct access to our product engineers and trained experts. We typically respond to every service call the same business day and are always able to help no matter how big or small the problem can be.

WE SERVICE ANY BRAND

ProdeW has the expertise to service whatever brand(s) of perishable control equipment you may have in any style case. We are an original equipment manufacturer and always have a wide variety of replacement parts in stock.

Over 40 Years Experience
