Hard Water Solutions

Reverse Osmosis

- Removes 97% of minerals, 99% of bacteria and chlorine
- 20" or 10" sediment and pre-carbon filters included with the system
- Easy wall mount design with included bracket

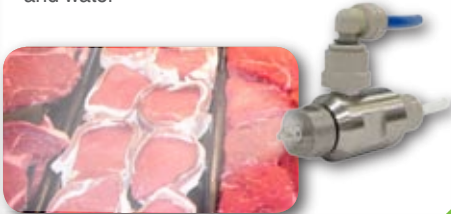

Anti-Scalant (Mineral Neutralizer)

- Prevents nozzles from clogging
- Protects pipes, RO membranes and appliances
- Gradually removes mineral build-up and prevents new build-up
- Pumps work more efficiently
- Reduces energy consumption

Comprehensive Solutions for Grocery Retail and Post-Harvest Preservation

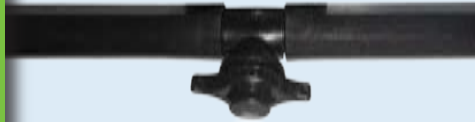

Display Case Humidity Prevent Dehydration

- For meat, seafood, delicatessen and flower displays
- Maintain fresh appearance of product for increased sales
- Maintain weight and prolong shelf life
- Fog-like mist, created using compressed air and water

Misting Systems Maintain Freshness

- For vegetables, seafood, plants, people cooling, golf carts and more
- Adaptable to fit into all types of display cases
- Versatile – adjustable nozzles with easy fingertip turn on/off wing nut on every nozzle
- Environmentally friendly – NO PVC
- Complete premium plug and spray unit includes pump, timer, filter and expansion tank
- Operates at safe 24 VAC

Night Covers Save Energy

- For refrigerated vertical and horizontal cases and chillers
- Lowers energy consumption during non-business hours
- 5-Year warranty
- Customizable, manual or motorized slow rise options available
- Magnet or screw-mount options available

Mobile Mist Maintain Freshness

- Ideal for vegetables, plants and flowers, where automatic misting is not possible
- Lightweight, mobile watering unit
- Battery operated
- Low cost

ProScent Eliminate Odors

- Ideal for garbage areas in supermarkets, restaurants and hotels
- Made with natural oils
- Clean, fresh-smelling treatment
- Aroma enhancement

A Prodew System Pays For Itself In A Few Months

Storage Humidity Extend Shelf Life

- For cold room and warehouse storage
- Maintain up to 98% relative humidity without wetting the product
- Maintain freshness and weight for vegetables, meat, fruit, flowers and more
- Can also be used in banana ripening rooms, wineries, mushroom growing facilities and more
- Optional remote computer control integration

Ethylene Control Prevent Premature Ripening and Extend Shelf Life

- For use in supermarket and warehouse storage facilities
- High flow rate – circulates a room in one hour
- Quick and easy drop-in filter replacement
- Disinfectant against bacteria and fungal spores

Reverse Osmosis/Anti-Scalant Systems Solve Hard Water Problems, Eliminate Impurities

- For all storage and retail applications where water is used
- Prevents buildup of scale and rust in the water channel
- Protects appliances such as ice machines, bakery proofers, coffee and espresso machines
- Allows pumps to work more efficiently
