

**Freshness
without
Wetness**

EFFICIENT

Reduces water and energy consumption

NO PVC

No systems use PVC plastics. Keep foods safe and your business up to code

SAFE

Operates on safe 24V
Closed system so no bacteria

EXTENDS SHELF LIFE

Misted produce tend to have a shelf life that is up to 2 days longer than non misted produce

DRY FLOORS

Mist will not collect as water, leaving no safety hazards or messes.

ProdeW's Misting and Fogging Systems and Equipment:

- Save you over \$7,000 annually in supermarket applications
- Maintain your products' fresh appearance for increased sales
- Pay for themselves in a few months
- Improve nutritional content
- Reduce product loss
- Prevent dehydration
- Eliminate the need for ice
- Extend the shelf life of your product
- Save labor costs since product doesn't need to be moved to overnight chillers
- Have an eco-friendly design without PVC
- Save shipping materials and shipping costs
- Use efficient nozzles for water conservation
- NSF listed of whole system (controls, mist track and nozzles)
- Use quality UL & CE approved electrical components
- Versatile and fit every merchandising style and case layout
- Uses low voltage to meet UL compliance

Misting

What is misting?

Misting is the process of putting pressurized water droplets of approximately 100 microns into the air. This is done in timed intervals to maintain moisture levels and freshness. As a result, shelf life is extended considerably.

FogMist™

What is FogMist™?

ProdeW FogMist™ produces visually pleasing fog while maintaining vital humidity levels to extend product shelf life and reduce food waste.

Features

- Case fronts and floors stay dry
- Is easy to install and maintain
- Will fit into any size display case
- Is customizable with adjustable fog time control
- Has components that are easily hidden under or over display cases
- Does not produce excessive moisture on products or wet the shoppers
- Uses nozzles with plastic tips to minimize clogging and mineral buildup
- Control is mounted separately from other system components for easy accessibility
- Is 100% efficient - water consumption is a small fraction of what traditional systems use
- Sprays fine, fog-like mist to maintain humidity and periodically create a dense cloud cascading down the front of the case

FogMist™ Bar

- Equipped with ProdeW's FogMist™ tips
- Individual shut-off valves
- Humidifies evenly without wetting the cases
- Produces a dry fog, eliminating wet floors

Water Solutions

Reverse Osmosis

ProdeW RO Systems are designed to **remove 97% of minerals.** Including an RO system in your store reduces mineral accumulation on mirrors, cases and other components of your product displays.

All our RO purification systems go through rigorous testing standards and come pre-assembled, easy to use and cost effective.

Features

- Five year warranty
- Slow-rise mechanism with no oil
- Easy screw or magnetic installation
- Unique, rounded, unbreakable handle
- Perforated fabric prevents condensation
- Complete aluminum coating won't chip or fray
- Cassette sizes: 2', 4', or 6'
- Non-cassette sizes: 2', 4', 6', or 8'
- No need for occasional adjustments or oiling
